COLOSSAL RUSSIAN ATTACK NOW WAR'S FEATURE; ALLIES CHEERFUL

Say German Assault On Verdun Fails; French Line Is Advancing MEXICAN SITUATION IS MORE CRITICAL

FALL OF JAROSLAW HELD TO PUT RUSSIA IN PLACE FOR BIG GERMAN INVASION

(Associated Press service by Federal Wireless.)

LONDON, England, Sept. 24.—Military experts here point out that the fall of the Austrian stronghold of Jaroslaw into Russian hands completes the first stage of the most colossal military operations ever undertaken.

The investment of Przemyśl blocks the advance of the Austrian and German forces, it is declared. The Russian movement is now that of a huge wedge-shaped body, constituting the Russian right, on the entire line from Libau to Warsaw. This long line prevents outflanking.

Disaster to Pursuing Germans Reported From Russian Sources

LONDON, England, Sept. 24.—Germans pursuing the Russians in East Prussia have met disaster at Subi. The Germans are evacuating East Prussia to reinforce their line at Kallias, on the Polish border.

British Troops Land in China To Join Attack on Tsingtau

TOKIO, Japan, Sept. 24.—Official announcement says: "A British expeditionary force under General Barnardiston landed on September 23 at Lavshan Bay and is moving against Tsingtau."

Paris Says Allies Are Winning

PARIS, France, Sept. 24.—General von Kluk, in command of the German right, is flinching under the attack of the Allies left.

The Allies have menaced the German attempt to cut off the army operating around Nancy.

The Germans are losing on the right. The Allies have advanced and now occupy Peronne. The Allies are also advancing on the left between the rivers Somme and Oise toward Noye.

The Germans are entrenched between the Oise and Aisne. The German advance in the Vosges has been repulsed.

Sixty British Naval Officers Lost

LONDON, England, Sept. 24.—Sixty British naval officers were lost in the sinking of the three British cruisers in the North Sea.

Albert Dougherty, chief gunner of the Cressy, says that the attack was made by five German submarines, one being destroyed. One German submarine has arrived safe in a German port.

It is possible there is an error in the above. The telegram in its skeleton form reads: "Five submarines, one destroyed." From the fact that it is stated afterward that only one submarine arrived safe in a German port, it is possible that the sentence means: "Five submarines and one destroyer."

Attack on Verdun Said to be Failure

LONDON, England, Sept. 24.—The Germans are making an attempt to pierce the line of French forts linking Verdun with Toul.

The German attack northeast of Verdun has failed. The center and left of the Allies are now confident.

German War Loan Reported Huge

LONDON, England, Sept. 24.—It is reported here that the German war loan is 4,389,000,000 marks.

This amounts to approximately \$1,057,000,000 in U. S. money. Several reports as to the size of the German war loan have been received here, one that it is \$250,000,000 and another that it is \$500,000,000. A report a few days ago from Berlin stated that the loan was heavily oversubscribed.

Say Socialists Turn on Kaiser

LONDON, England, Sept. 24.—It is declared here that Socialist posters have been put up in Berlin bearing the words, "Down with the Kaiser! We want peace."

Turkish Ambassador is Resentful

WASHINGTON, D. C., Sept. 24.—A. Rustem Bey, Turkish ambassador to the United States, has notified President Wilson that he will leave the United States in a fortnight and that he will not retract the statement criticising the United States government for sending American cruisers to Constantinople.

J. J. SMIDDY TO TAKE MARSHAL'S OFFICE SHORTLY

J. J. Smiddy, appointed U. S. marshal for Hawaii a few weeks ago, will take office about October 1.

Except for cablegrams to the Star-Bulletin from its Washington correspondent, practically nothing has come to Hawaii concerning the Smiddy appointment and he himself has not even received official word that he is to take the post. In fact, there has been such a delay in closing up the appointment details that the Star-Bulletin cabled to Washington to ascertain the standing of the matter. The following cablegram came from C. S. Albert in reply this morning: "Smiddy's commission signed and mailed September 16."

The commission is expected to arrive here shortly before October 1 and Smiddy will qualify immediately. It is understood he is already making arrangements to perfect the required bond.

There is some speculation as to what appointments the new marshal will favor for his office. He will have first and second deputy marshals and a messenger. The expectation is that Albert Harris, one of his closest political associates, will be named chief deputy, but another rumor has it that Palmer P. Woods, late candidate for the Democratic nomination for delegate, may be placed in the office.

Because Judge William L. Whitney, several of the attorneys in the case, and a majority of the members of the jury today are attending the ceremonies at Kuluhi which mark the opening of the local Marconi wireless station, there was no hearing in the

trial of Jeff McCarn.

Up to the time the first edition of the Star-Bulletin went to press, no news had been received from Berlin. The last official announcement from the German capital emphasized important victories over the Russians in East Prussia.

Capture of Jaroslaw is Confirmed

PETROGRAD, Russia, Sept. 24.—Official announcement says: "The capture of Jaroslaw is confirmed."

VILLA'S TROOPS MOVED SOUTH TO OPPOSE CARRANZA

Crisis in Mexico More Serious
and Outbreak of Battling
is Threatened

(Associated Press by Fed. Wireless.)
WASHINGTON, D. C., Sept. 24.—Affairs in troubled Mexico have once again come to a crisis with the serious revolution against Provisional President Carranza, headed by his former chief general, "Pancho" Villa.

Following the latter's posting of revolution proclamations, he has moved south with his 40,000 troops to meet the Carranza forces. Gen. Carranza today telegraphed to Washington that he will not make the attack on the opposing troops and asks the United States not to interfere. Efforts to heal the breach between the two Constitutional leaders are being made in Mexico City.

President Wilson today conferred with the state department and may decide that the United States troops shall be kept at Vera Cruz.

General Gochan, who was reported to be holding Veracruz, is a virtual prisoner of war to Villa.

LARGE LIST OF FOREIGNERS TO BECOME CITIZENS

Residents of Honolulu to the number of ten, representing nearly as many different nationalities, who have applied for naturalization as American citizens, will have their petitions heard in the federal court at 10 o'clock tomorrow morning before Judge Sanford B. Dole.

This is one of the largest number of petitioners for naturalization to be given hearings in the federal court at any one time, and it is probable that the entire morning will be given over to the proceedings.

Following is a list of the petitioners and their witnesses:

Richard Kalbe, a native of Gotha, Germany; witnesses, Adolph Ahrens and Charles Stephens.

Claude Buffett, a native of Grand Bank, Newfoundland; witnesses, Geo. Smith and Robert Horner.

John Bryant, a native of Pembroke, England; witnesses, Oliver Walker and Richard Trent.

Manuel de Colto, a native of San Miguel, Azores; witnesses, Vincent Fernandez, Jr., and Manuel Medeiros.

Hans Christian Lybe, a native of Hem Kive, Denmark; witnesses, Robert Law and Edwin Cooper.

William Scott May, a native of Newark, England; witnesses, Arthur Faria and Alfred Wall.

Anton Munze, a native of Koblenz, Germany; witnesses, John Olsen and Robert Bodman.

Christian Wilhelm Lorin, a native of Norrkoping, Sweden; witnesses, Chas. Albrecht and Jack Edvardson.

Jose Lopez, a native of Spain; witnesses, Daniel Bellew and John Lucas.

Maya Boota, a native of Calcutta, India; witnesses, Wallace E. Saffery and William Speckman.

GREAT MARCONI PLANT IS OPENED CELEBRATION MARKS WIRELESS FEAT

Guglielmo Marconi (above), whose genius made possible the wireless girdling of the globe, and Governor L. E. Pinkham (below), who touched the button that set in operation Kahuku plant, which enters Hawaii in globe-circling chain.

GREETINGS FLASHED TO HAWAII BY NEW MARCONI AIR ROUTE

(Special Telegraphic Correspondence.)

KAHUKU, Sept. 24.—Greetings to the people of Hawaii from the mainland were received early this afternoon over the new Marconi system, answering the messages sent from Oahu.

The first message received at the station was from Charles C. Moore, president of the Pan-Pacific exposition. It was addressed to Governor Pinkham and read as follows:

"The Panama-Pacific International Exposition sends cordial greetings to the people of Hawaii and congratulates them on the additional facilities for communication with the outside world provided by the Marconi Wireless Telegraph Company and earnestly hopes this will stimulate both trade and travel and contribute materially to the prosperity and happiness of your people."

A long congratulatory message was received from A. P. Taylor, in charge of the San Francisco office of the Hawaii Promotion Committee.

"A message of good wishes for continued success was received by Mr. Slaughter, signed, 'The People of Honolulu.'"

Governor Presses Silver Key; Aerial Link True; Big Crowd at Ceremony

MESSAGES OF GREETING GO
TO NOTED MAINLAND MEN

Aloha From Hawaii Pulses Across Pacific in
Commemoration of New Aerogram Route
—198 Guests of Marconi Company at Al
Fresco Luncheon—Big Kahuku Plant In-
spected by Visitors Who Go by Special
Train And Auto

(Special telegraphic correspondence by Marconi land wire.)
MARCONI WIRELESS STATION, Kahuku, Sept. 24.—The Oahu link in the great aerial chain that will bind the continents of North America and Asia has been tested and found to be strong and true.

Shortly after 12 o'clock today Governor L. E. Pinkham, from his place at the head of the Al fresco banquet board at the big Kahuku station, pressed a silver key. With that movement the Marconi wireless plant on Oahu was formally opened and trans-Pacific communication by the new system successfully established.

It was an impressive ceremony and far-reaching in its ultimate results. The crash of the wireless spark drowned all other noises in the plant and for a moment stilled the big crowd of guests assembled to commemorate the opening of what is said by experts to be the greatest wireless station in the world in capacity and power.

One hundred and ninety-eight guests of the company sat down to the luncheon table, after making a thorough inspection of the plant previous to the turning-on of the power by the territory's chief executive.

The celebration under the auspices of the Honolulu Chamber of Commerce was a complete success, carried out as it was in thoughtful and hospitable detail by the Marconi Wireless Company. The Marconi management provided not only splendid accommodations, but spread a hospitable board for its guests, who included the leading business and professional men of the city and many public officials and representatives of commercial or other bodies.

The guests from Honolulu left the city at 3 o'clock by the special train and arrived at the Kahuku stopping place at 11:40, after having picked up about 30 passengers who made the trip from the city to Haleiwa by auto.

The company's guests sat down to luncheon in an improvised pavilion in the shadow of the towering wireless masts. Former Governor George R. Carter, president of the Chamber of Commerce, acted as toastmaster on behalf of the chamber.

Real wireless messages to many mainland men and officials, including the President, were sent and received. A feature of the luncheon program was the reading of fake messages from various people to some of the businessmen present. The messages were of a humorous nature and stirred up much laughter, while the real congratulatory aerograms exchanged between Hawaii and the mainland were read amid applause.

Three rousing cheers were given for Mr. N. H. Slaughter, the engineer in-charge for the Marconi Company, and three cheers for the company. L. A. Thurston made an interesting talk on the history of communication of various sorts in Hawaii, and Engineer Slaughter also made a striking talk on the hopes and plans of the new system that has come to Oahu to stay.

The weather is overcast, but no rain has fallen and the opening ceremonies have been an entire success.

Big Construction Work Completed.
With the opening of the Marconi plants at Kahuku and Koko Head, one of the greatest industrial plants in Hawaii is practically complete.

The two plants together represent an investment of close to a million dollars, of which nearly \$750,000 has been expended in the gigantic Kahuku plant. This station will ultimately serve as the sending station to the Orient when the rest of the round-the-world Marconi chain is put in place.

The Marconi company has been preparing for today's opening for more than a year. Owing to delay in getting material for the plants, the work at times progressed slowly. The plants are of such unusual size and so great is the power demanded that most of the machinery had to be specially built for the Oahu installations.

The opening of the Kahuku plant today was made a gala occasion by Honolulu. The celebration was under the auspices of the Chamber of Commerce and much of the day's business in the city was suspended owing to the large number of business men who made the trip.

They expressed themselves as delighted today with the big plant, its costly and unique machinery and the fact that the Marconi Wireless Telegraph Company of America is now a part and parcel of Hawaii's industrial life.

Congratulations of the most cordial kind were bestowed today upon the
